

What is SafeEngine

SafeEngine is a strategic partnership between Higher Education from Europe (University POLITEHNICA of Bucharest, Romania, University of Malaga, Spain, Lucian Blaga University of Sibiu, Romania and University of Naples Federico II, Italy), in order to foster improvements in engineering education

Network

Students trained: 80

Professors trained: 39

Students in Summer school: 28

Beneficiaries of Multiplier Events: 105

Mission

SafeEngine aims to boost European quality and applied higher education by reinforcing the links between engineering and society through:

- Fostering a Europe committed to engineering
- Developing interdisciplinary engineering learning
- Encouraging the transfer of knowledge, skills and technology
- Fostering inclusiveness and diversity

Vision

We envision a quality higher education system that enables students to complete their education and further their careers through

- Developing interdisciplinary engineering
- Fostering knowledge transfer and the intelligent use of technology
- Connecting academic excellence, professional development and social engagement
- Encouraging inclusion and diversity

Community

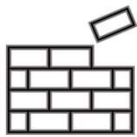

Collaborative platforms that connect students, professors and researchers from all partner universities in collaboration with leading professionals, NGOs, citizens, private companies and public institutions to find innovative solutions to real-world challenges.

SafeEngine

SafeEngine was created with the hope of providing engineering and technical students with an applied education, taught by professionals and in accordance with the principles of European society, advanced in science and technology as well as in social values.

Into practice

Students:

- Training for students through on-line courses to facilitate their follow-up.
- Training summer school in technical areas

Professors:

- Organization of specialized workshops
- Creation of knowledge organized in books and manuals

Technical areas we work in

- Occupational health and safety
- Environmental risk assessment
- Safety in process industries
- Social inclusion of peoples with disabilities in the workplace

Partners

Leader

- **University POLITEHNICA of Bucharest** (Romania)

Partners

- University of Malaga (Spain)
- Lucian Blaga University of Sibiu (Romania)
- University of Naples Federico II (Italy)

SafeEngine for an
integrated engineering
concept in Europe

Co-funded by the
Erasmus+ Programme
of the European Union

SafeEngine

With the essence of Erasmus+

A Strategic Partnership between educational institutions (University POLITEHNICA of Bucharest, Romania, University of Malaga, Spain, Lucian Blaga University of Sibiu, Romania and University of Naples Federico II, Italy), in order to foster improvements in quality and innovation.

Mission

SafeEngine aims to boost European quality and applied higher education by reinforcing the links between engineering and society.

In the target

- Fostering a Europe committed to engineering
- Developing interdisciplinary engineering learning
- Encouraging the transfer of knowledge, skills and technology
- Fostering inclusiveness and diversity

Partners

Leader

- University POLITEHNICA of Bucharest (Romania)

Alliance

- University of Malaga (Spain)
- Lucian Blaga University of Sibiu (Romania)
- University of Naples Federico II (Italy)
